

# Score Choice & Superscoring Cheat Sheet

Policy checklist + retake/send strategy without stress.

## Definitions (plain English)

- ☐ **Score Choice:** you may be able to choose which test dates to send.
- ☐ **Superscoring:** schools combine your best section scores across sittings.

## Policy checklist (read like a checklist, not marketing)

- ☐ Do they accept SAT, ACT, or both?
- ☐ Do they superscore? (SAT and/or ACT)
- ☐ Do they allow Score Choice (choose which sittings to send)?
- ☐ Do they require ALL scores from ALL sittings?
- ☐ Official reports required or self-report allowed?
- ☐ Any exceptions (programs, scholarships, international)?

## Send + retake strategy

- ☐ Retake only when practice data shows real upside (not panic).
- ☐ If superscoring: focus on raising one section at a time.
- ☐ If all scores required: be more selective about retakes.
- ☐ Use a stop rule so testing doesn't expand forever.

### My stop rule

Stop after I hit my target range OR after 2 official tests if practice data plateaus.

Target range

Retake conditions (what data must be true)
